### "Made in Chez Nous®"

Solid above all, and worn because it looks good; that is the fervent belief of Artiga, which strongly defends the colours of a carefully safeguarded heritage. Today, Quitterie Delfour is watching over its products. Tradition is always good, and it is often very smart. Embroidered with patience, each product bears the stamp of the local know-how and the inimitable striped quality, a true signature of excellence. All its creations and articles are designed and made in the heart of south-west France, the birthplace of traditional striped Basque cloth. The recent collections have taken on bright, contemporary hues, drawn from their creator's poetic imagination.

Each season has its "art de vivre" cloth by the metre, objects and accessories that add a fancy note to our homes, play with our senses, and wrap our moods in simple, caressing emotions.

Proof if proof were needed that memory and local products are forever closely intertwined, cut from the same cloth.

100% "made in Chez Nous®"... And now available specially for you!
